

INDEX TO VOLUME 33

NOTE

- 1 Names of authors and discussors and headings of groups of similar subjects are in caps and small caps.
- 2 Titles of papers, when not in inverted order, are printed in italics. All cross-indexing is in caps and lower case.
- 3 The Society is not responsible as a body for the statements of facts or opinions in the papers and discussions.

Air, separation in cement plants.....	189, 190
specific heat of, determination.....	1014
supply, regulation of air compressor.....	385
Air compressor, occurrence and elimination of pulsations in pressure line. 387	
turbine driven.....	381
<i>Air-Conditioning Apparatus</i> , WILLIS H. CARRIER and FRANK L. BUSEY..	1055
Classification of; humidifiers; dehumidifiers; strainers; humidity control (dewpoint method and automatic); thermostats (dewpoint, differential); hygrometers (vapor pressure, Carrier differential); design of humidifiers and air-conditioning systems; heat transmission in direct surface air heaters and dehumidifiers; experimental determination of the laws of convection.	
Discussion: R. C. CARPENTER, F. R. STILL, J. I. LYLE, Closure.....	1131
Air conditioning in textile plants.....	982, 994
ANTHONY, GARDNER C. <i>Pressure-Recording Indicator for Punching Machinery</i>	369
Assembling a Small and Intricate Machine, The Process of, HALCOLM ELLIS	211
<i>Assembly of Small Interchangeable Parts, The</i> , JOHN CALDER.....	195
Requirements of economical part assembly; organization of large works making and assembling small interchangeable parts; organization of time study department.	
<i>Atomization of Oil</i> , A. M. HUNT.....	43
Back-lash, definition of.....	714
BARRUS, G. H. and MANLY, C. M. <i>Variable-Speed Power Transmission</i> . 851	
BELL, A. F. L. <i>Production of Petroleum on the Pacific Coast</i>	27
Blast-Furnace Blowing Engines, Reciprocating, W. TRINKS.....	427
BLOWING ENGINES	
<i>Reciprocating Blast-Furnace Blowing Engines</i> , W. TRINKS.....	427
Clearance space.....	447, 459
BOILERS	
<i>Tests of Large Boilers at the Detroit Edison Company</i> , D. S. JACOBUS. 565	

<i>Oil Fuel for Steam Boilers</i> , B. R. T. COLLINS.....	83
<i>Strain Measurements of Some Steam Boilers under Hydrostatic Pressures</i> , JAMES E. HOWARD.....	639
Brick work for large boilers.....	602
BUNNELL, STERLING H. <i>Expense Burden: Its Incidence and Distribution</i>	535
BUSEY, FRANK L., CARRIER, WILLIS H. and. <i>Air-Conditioning Apparatus</i>	1055
CALDER, JOHN. <i>Assembly of Small Interchangeable Parts, The</i>	195
Carbureters, methods of keeping clean.....	80
CARDULLO, FORREST E. <i>Energy and Pressure Drop in Compound Steam Turbines</i>	325
CARRIER, WILLIS H. <i>Rational Psychrometric Formulæ</i>	1005
and BUSEY, FRANK L. <i>Air-Conditioning Apparatus</i>	1055
Castings, Die, AMASA TROWBRIDGE.....	839
CEMENT MANUFACTURE	
<i>Cement Manufacture, Symposium on</i> , WALTER S. LANDIS, W. H. MASON, L. L. GRIFFITHS.....	133
Discussion: H. STRUCKMANN, P. C. VAN ZANDT, F. B. GILBRETH, R. K. MEADE, W. R. DUNN, C. J. REILLY, G. P. HEMSTREET, F. L. SCHWENCK, W. M. KINNEY, W. B. RUGGLES, F. H. LEWIS, Closures.....	175
<i>Topical Discussion on Cement Manufacture</i> , OTTO SCHOTT, J. BENTON PORTER, FREDERICK H. LEWIS, J. G. BERGQUIST, HOLGER STRUCKMANN.....	717
Chatter and land (milling cutters).....	261
Chimney, stacks, desirable height of.....	78
for oil-burning plants.....	69
Chip, breaker with clearance at both corners.....	254
space, influence on cutting capacity.....	247
COAL	
<i>Comparative Evaporative Values of Coal and Oil</i> , C. F. WIELAND....	32
Equivalent costs per b.h.p. of coal and oil.....	921
and fuel oil, relative values as fuels.....	56, 58
and natural gas, cost equalization chart.....	969
<i>The Purchase of Coal</i> , DWIGHT T. RANDALL.....	313
COLLINS, B. R. T. <i>Oil Fuel for Steam Boilers</i>	83
<i>Commercial Application of the Turbine Turbo-Compressor</i> , RICHARD H. RICE.....	381
Description of the General Electric Co. turbine turbo-compressor; its efficiency; pulsations in pressure; condensing apparatus; general conclusions as to the working of turbine turbo-compressors.	
Discussion: E. D. DREYFUS, J. E. JOHNSON, JR., R. N. EHRHART, C. G. DE LAVAL, JULIAN KENNEDY, JOSEPH MORGAN, C. J. BACON and H. J. FREYN, Closure.....	392
Compressed air, expansion and temperature drop.....	918
<i>Confirmation of the Advantages of Electricity to the Cement Manufacturers</i> , J. BENTON PORTER.....	724

Comparison of electric and mechanical drive; specification of electric apparatus for cement plants.	
Constant-stage efficiency in compound steam turbines.....	340
<i>Core Room: Its Equipment and Management, The</i> , HENRY M. LANE....	735
The author's laboratory and testing equipment; action on a core in the mold; gases formed in the mold; core room location and arrangement; core sands and binders; selection and compounding of core materials; cost of strength in a core; core ovens and core drying; core pasting, handling, and storage; core machines and core rigging.	
Discussion: B. D. FULLER, AUGUSTUS N. KELLEY, ALEX. E. OUTERBRIDGE, JR., H. A. BECKER, THOMAS D. WEST, RICHARD MOLDENKE, Closure.....	814
Cost of cement manufacture.....	144, 185
Cox, F. P. <i>Quantity Manufacture of Small Devices</i>	233
Cross-Sections, Standard, H. DE B. PARSONS.....	561
Crushers, for cement making.....	137
<i>The Edison Roll Crushers</i> , W. H. MASON.....	145
limit of size of.....	180
Cutters, Milling, and Their Efficiency, A. L. DE LEEUW.....	245
DAY, P. C. <i>Herringbone Gears, with Special Reference to the Wuest System</i>	681
DELEEUEW, A. L. <i>Milling Cutters and Their Efficiency</i>	245
<i>Depreciation and Obsolescence in Portland Cement Plants</i> , HOLGER STRUCKMANN.....	731
<i>Design Constants for Small Gasolene Engines</i> , WM. D. ENNIS.....	927
Ideal work done per power stroke; resistance due to air; actual work done per power stroke; acceleration conditions; conclusions.	
<i>Development of the Textile Industries of the United States, The</i> , FRANK W. REYNOLDS.....	971
Statistics; historical sketch; present conditions and problems; construction of plant; power; machinery; humidity and temperature; removal of lint; lighting; wool and worsted manufacture; management and labor efficiency.	
Discussion: C. T. MAIN, G. R. STETSON, J. ECCLES, G. H. PERKINS, C. F. SCOTT, A. J. HERSCHMAN, J. A. PRATT, J. I. LYLE, C. W. RICE, D. SEABURY, G. M. BRILL, E. D. DREYFUS, A. L. PEARSON, C. T. PLUNKETT.....	988
DREYFUS, E. D. and HULTQUIST, V. J. <i>Economy of a 1000-Kw. Natural Gas Engine</i>	939
<i>Die Castings</i> , AMASA TROWBRIDGE.....	839
Historical sketch; materials used for dies and castings; casting machines; Veeder cyclometer; cost of parts made by the die-cast method.	
Diesel engines on California crude oil.....	80
Draft for combustion of oil.....	72
DUNN, K. G. <i>Size of Stacks with Fuel Oil</i>	46

<i>Dust Problem in Portland Cement Plants and Its Solution, The, OTTO SCHOTT</i>	717
Dust-eliminating devices; removal of dust from waste gases and rotary kilns; economy of dust elimination.	
<i>Economy of a 1000-Kw. Natural Gas Engine, E. D. DREYFUS and V. J. HULTQUIST</i>	939
Object and conditions of test; summary of results; general deductions; construction costs; cost of production; method of testing.	
Discussion: W. D. ENNIS, E. S. McCLELLAND, H. J. FREYN, J. WILLIS, H. C. COOPER, Closure.....	963
<i>Economic Importance of the Farm Tractor, The, L. W. ELLIS</i>	109
Sources of data; coal and water consumption; gasoline consumption; thermal and tractive efficiency; daily capacity of tractors; cost of operation and production.	
<i>Edison Roll Crushers, The, W. H. MASON</i>	145
Dynamite and coal compared as sources of mechanical power; the slugger; giant rolls; tachometer tests of slugger rolls; capacity of rolls; power required.	
Electric drive in textile mills, rules for selection.....	999
<i>Electrical Power in Cement Plants, FREDERICK H. LEWIS</i>	726
Advantages and disadvantages of electric drive; influence of size of plant.	
Elevators with herringbone gear drive.....	710
Ellis adding typewriter, assembling of.....	211
ELLIS, HALCOLM. <i>The Process of Assembling a Small and Intricate Machine</i>	211
ELLIS, L. W. <i>The Economic Importance of the Farm Tractor</i>	109
<i>Energy and Pressure Drop in Compound Steam Turbines, FORREST E. CARDULLO</i>	325
Professor Peabody's method for determining the properties of steam during its passage through the turbine; use of Mollier's diagram.	
Discussion: W. H. HERSCHEL, C. H. PEABODY, W. D. ENNIS, Closure.	333
<i>Engineer and the Future, The, E. D. MEIER</i>	493
ENGINES	
<i>Oil Engines, H. R. SETZ</i>	857
<i>Test of an 85-H.P. Oil Engine, FORREST M. TOWL</i>	905
ENNIS, WM. D. <i>Design Constants for Small Gasoline Engines</i>	927
Exhauster in dust-eliminating plants.....	718
<i>Expense Burden: Its Incidence and Distribution, STERLING H. BUNNELL</i>	535
Distribution by proportion over the cost of products; ratio of direct and indirect expenses, real meaning of; method of establishing correct distribution; distribution per productive unit.	
Discussion: H. F. STIMPSON, BENJ. A. FRANKLIN, H. K. HATHAWAY, WM. KENT, HARRINGTON EMERSON, Closure.....	547
Fan Chimneys, measuring discharge from by Pitot tube.....	1153
Farm Tractor, The Economic Importance of the, L. W. ELLIS.....	109
Feed apparatus, graduated, for large boilers.....	591

File, prohibition of use of in handling small interchangeable parts....	205
Finish independent of tooth spacing.....	255
Firemen, training of for best oil firing.....	77
Forced-diffusion type of blower, characteristics.....	397
Forging Presses, Power Forging with Special Reference to Steam- Hydraulic, BARTHOLOMÄUS GERDAU and GEORGE MESTA.....	469
Free diffusion type of blower, characteristics.....	400
Friction of air in pipes.....	1151
Fuel gas supplied to engine, determination of volume.....	965
FUEL OIL	
<i>Fuel Oil, Topical Discussion on</i> , A. F. L. BELL, C. F. WIELAND, J. N. LECONTE, C. R. WEYMOUTH, A. M. HUNT, K. G. DUNN, H. STILL- MAN, J. H. HOPPS, E. C. JONES.....	27
Discussion: W. H. FROST, C. R. WEYMOUTH, W. F. DURAND, GUY L. BAYLEY, THOS. MORRIS, E. J. DYER, G. H. MARX, H. STILL- MAN, R. W. FENN, A. F. L. BELL.....	66
<i>Oil Fuel for Steam Boilers</i> , B. R. T. COLLINS.....	83
<i>Furnace Arrangement for Fuel Oil</i> , C. R. WEYMOUTH.....	39
GAS ENGINES	
<i>Economy of a 1000-Kw. Natural Gas Engine</i> , E. D. DREYFUS and V. J. HULTQUIST.....	939
<i>Topical Discussion on Large Blast-Furnace Gas Power Plants</i>	293
Gasoline Engines, Design Constants for Small, WM. D. ENNIS.....	927
Gears, Herringbone, P. C. DAY.....	681
GERDAU, BARTHOLOMÄUS and MESTA, GEORGE. <i>Power Forging, with Special Reference to Steam-Hydraulic Forging Presses</i>	469
Governing air compressors.....	385
GRIFFITHS, L. L. <i>Power and Heat Distribution in Cement Mills</i>	165
HARTNESS, JAMES. <i>The Turret Equatorial Telescope</i>	499
HAYWOOD, D. HOWARD. <i>Letters Patent for Inventions</i>	119
Heat, in the discharged clinker, utilization of.....	175
drop per stage in compound steam turbines.....	327
<i>Herringbone Gears, with Special Reference to the Wuest System</i> , PERCY C. DAY.....	681
Action of spur and herringbone gears; production of herringbone gears; hobbing process; Wuest gears; conditions of interchange- ability; dimensions of tooth; application of herringbone gears to steam and hydraulic turbines, pumps, mining machinery, ele- vators.	
Discussion: F. E. ROGERS, L. D. BURLINGAME, F. DE R. FURMAN, W. C. BROWN, Closure.....	711
Hobbing process, advantages and defects.....	689
Holborn and Baumann determination of properties of saturated steam.	352
HOPPS, J. H. <i>Marine Use of Fuel Oil</i>	57
HOWARD, JAMES E. <i>Strain Measurements of Some Steam Boilers Under Hydrostatic Pressures</i>	639

HULTQUIST, V. J., DREYFUS, E. D. and. <i>Economy of a 1000-Kw. Natural Gas Engine</i>	939
Humidity, atmospheric, methods of measuring.....	1010
in textile plants.....	982, 994
HUNT, A. M. <i>Atomization of Oil</i>	43
Hydraulic turbines with herringbone gearing.....	703
Indicator for Punching Machinery. Pressure-Recording. GARDNER C. ANTHONY	369
<i>Interchangeable Parts, Symposium on Small</i> , JOHN CALDER, HALCOLM ELLIS, F. P. COX.....	195
Discussion: HUGO DIEMER, EDWARD PUCHTA, C. W. RIPSCH, A. C. JACKSON, CHAS. W. JOHNSON, N. W. PERKINS, JR., W. J. KAUP, Closures	237
Intermediate temperatures in compound steam turbines, method of finding	343
Inventions, Letters Patent for, D. HOWARD HAYWOOD.....	119
JACOBUS, D. S. <i>Tests of Large Boilers at the Detroit Edison Company</i> ..	565
JONES, E. C. <i>Producer Gas from Crude Oil</i>	63
Kiln (cement) design.....	140
KNEELAND, FRANK H. <i>Some Experiences with the Pitot Tube on High and Low Air Velocities</i>	1137
LANDIS, W. S. <i>Some Problems of the Cement Industry</i>	133
LANE, HENRY M. <i>The Core Room: Its Equipment and Management</i>	735
<i>Large Blast-Furnace Gas Power Plants, Topical Discussion on</i> , A. E. MACCOUN, R. H. STEVENS, A. N. DIEHL, ALEX. L. HOEHR, H. J. FREYN, E. FRIEDLANDER, W. TRINKS, JOS. MORGAN.....	293
LE CONTE, J. N. <i>The Relative Value of Light Oil as Compared with Fuel Oil</i>	36
<i>Letters Patent for Inventions</i> , D. HOWARD HAYWOOD.....	119
Novelty distinguished from infringement; patent rights transferable in whole or in part; the patent itself, and the claims thereof; what a patent may cover; foreign patents; summary.	
Light Oil as Compared with Fuel Oil, The Relative Value of, J. N. LE CONTE	36
<i>Locomotive Practice in the Use of Fuel Oils</i> , HOWARD STILLMAN.....	47
Losses unaccounted for.....	624
MAGRUDER, WM. T. <i>Tests of a Sand-Blasting Machine</i>	821
MANLY, C. M., BARRUS, G. H. and. <i>Variable-Speed Power Transmission</i>	851
<i>Marine Use of Fuel Oil</i> , J. H. HOPPS.....	57
MARKS, LIONEL S. <i>The Pressure-Temperature Relations of Saturated Steam</i>	351
MASON, W. H. <i>The Edison Roll Crushers</i>	145
Material-Ziffer	302

MEETINGS OF THE SOCIETY

Annual Meeting, December 5-8.....	485
Program; Committees	
Boston, January 31.....	19
Boston, February 17.....	20
Boston, March 17.....	20
Boston, April 21.....	21
Boston, May 17.....	21
Boston, October 18.....	483
Boston, November 16.....	485
New Haven, November 15.....	484
New York, January 10.....	19
New York, February 14.....	20
New York, March 10.....	20
New York, April 11.....	21
New York, May 9.....	21
New York, October 9.....	483
New York, November 11.....	484
Philadelphia, January 28.....	19
Philadelphia, April 22.....	21
Philadelphia, June 3.....	22
Philadelphia, October 18.....	484
Pittsburgh Meeting, May 30-June 2.....	22
Program; Committees	
Providence, May 3.....	21
San Francisco, March 10.....	20
San Francisco, October 17.....	483
San Francisco, November 2.....	484
St. Louis, March 25.....	20
St. Louis, June 7.....	22
St. Louis, September 20.....	483
St. Louis, November 11.....	484
MEIER, EDWARD DANIEL, Biography of.....	1
<i>The Engineer and the Future</i>	493
MESTA, GEORGE, GERDAU, BARTHOLD and. <i>Power Forging, with Special</i>	
<i>Reference to Steam-Hydraulic Forging Presses</i>	469
<i>Methods and Appliances for Prevention of Accidents in Cement Plants,</i>	
J. G. BERGQUIST.....	730
Practice of the Universal Portland Cement Company; training men	
for safety.	
Mill construction, for textile mills, importance of rigidity.....	976, 980
<i>Milling Cutters and Their Efficiency</i> , A. L. DELEEuw.....	245
Action of milling cutter and character of chip; proportion between	
chip and chip space; spiral milling cutters, old and new; milling	
cutters used for finishing chip breakers; tooth spacing and finish;	
end mills, old and new; side mills and face mills; chatter; helical	
cutters.	
Discussion: JOHN PARKER, A. F. MURRAY, W. S. HUSON, P. V.	
VERNON, Closure.....	278

Molding machines for die casting.....	841
Mollier's diagram, use of.....	330
Natural Gas Engine, Economy of a 1000-Kw., E. D. DREYFUS and V. J. HULTQUIST	939

NECROLOGY

ABRAHAM, MORRIS LANDA.....	1175
ALBERGER, LOUIS R.....	1175
BROOKS, PAUL RAYMOND.....	1176
BROWN, ALEXANDER E.....	1176
BULKLEY, HENRY W.....	1177
CALDWELL, GEORGE B.....	1178
CALDWELL, JOHN A.....	1178
CANNIFF, WILLIAM LESTER.....	1179
CHRISTIE, JAMES.....	1180
CORBETT, WILLIAM HARRISON.....	1181
DAVIS, THOMAS B.....	1181
EDSON, JARVIS B.....	1182
FERGUSON, HENRY A.....	1183
FERRIER, JOSEPH JAMES.....	1183
FREEMAN, STUART E.....	1184
GOBELLE, JOSEPH LEON.....	1184
HAGUE, CHAS. ARTHUR.....	1185
HAMMARBERG, ARNDT L.....	1186
HART, FREDERICK L.....	1186
HASKINS, CARYL D.....	1187
HAYWOOD, D. HOWARD.....	1188
HEWLINGS, ANDREW J.....	1188
HOPTON, LEMUEL R.....	1188
HUMPHREY, CHARLES SCRANTON.....	1189
HUNT, CHARLES WALLACE.....	1189
JOHNSON, HENRY JAMES.....	1194
JOHNSON, WARREN S.....	1194
LARSON, CHARLES J.....	1195
McKINNEY, WILLIAM S.....	1195
McLAUGHLIN, JAMES.....	1196
MASON, WILLIAM B.....	1197
MIX, EDGAR W.....	1197
MOORE, DOUGLASS G.....	1198
MORGAN, CHARLES HILL.....	1198
MORRISON, HUGH S.....	1202
NORBOM, JOHN O.....	1202
OULD, JOHN G.....	1203
SALTER, THOMAS F.....	1204
SANCTON, EDWARD K.....	1205
SCHUMANN, FRANCIS.....	1205
SEAYER, JOHN WRIGHT.....	1206
STRANAHAN, OLIN AMES.....	1207

TURNER, JOHN.....	1208
WHITE, EVERETT HANSON.....	1209
WILSON, DWIGHT B.....	1209
YARYAN, EDWARD B.....	1209
Oil burners, types of.....	87, 94
Oil, crude California, independence of calorific value from hydrogen and carbon content.....	68
extractable.....	29
Oil Engines, H. R. SETZ.....	857
Vaporizing and mixing; Diesel engine; American Diesel engine; Sabathé engine; De La Vergne engine; air supply; Trinkler-Koerting engine; Haselwander engine; Setz engine; Diesel engine and other prime movers compared.	
Oil Engines, Symposium on, H. R. SETZ, FORREST M. TOWL.....	857
Discussion: C. E. SARGENT, A. J. FRITH, WM. SANGSTER, L. K. DOELLING, C. W. BAKER, L. B. LENT, H. J. FREYN, E. D. DREYFUS, Closures.....	915
Oil Fuel for Steam Boilers, B. R. T. COLLINS.....	83
Advantages and disadvantages of oil fuel; principles involved in efficient oil burning; types of oil burners; method of installation; tests of oil-burning boilers; relative cost of oil and coal.	
Discussion: E. H. PEABODY, M. H. BRONSDON, D. S. JACOBUS, S. F. MCINTOSH, B. R. T. COLLINS, C. F. DIETZ, J. C. RILEY.....	103
Oil storage on ships.....	60
Organization of works making and assembling small interchangeable parts.....	196, 234, 239
Parallel operation of blowers.....	398
PARSONS, H. DE B. <i>Standard Cross-Sections</i>	561
Patents on scientific instruments.....	511, 529
Peabody oil furnace.....	40, 102
Petroleum on Pacific Coast, The Production of, A. F. L. BELL.....	27
Piecework system of payment in the manufacture of small interchangeable parts.....	204
Phot Tube on High and Low Air Velocities, Some Experiences with the, FRANK H. KNEELAND.....	1137
Portland cement, definition.....	133
Power, mechanical, available in coal and dynamite, compared.....	145
Power Transmission, Variable-Speed, G. H. BARRUS and C. M. MANLY..	851
Power Forging, with Special Reference to Steam-Hydraulic Forging Presses, BARTHOLD GERDAU and GEORGE MESTA.....	469
Steam hammer and press compared; steam consumption of either, and of the direct-acting steam hydraulic press.	
Discussion: J. I. ROGERS, W. E. HALL, Closure.....	477
Power and Heat Distribution in Cement Mills, L. L. GRIFFITHS.....	165
Power production by total or partial combustion of fuel; description of power installation and mill arrangement in five plants.	

Pressure Drop in Compound Steam Turbines, Energy and, FORREST E. CARDULLO	325
<i>Pressure-Recording Indicator for Punching Machinery</i> , GARDNER C. ANTHONY	369
Description of the device and shearing punch used; specimen diagrams from recorder; effect of time and clearance on maximum stress; description of, and data from, supplemental tests.	
Discussion: R. C. CARPENTER, JULIAN KENNEDY, Closure.....	379
<i>Pressure-Temperature Relations of Saturated Steam</i> , The, LIONEL S. MARKS	351
Holborn and Baumann investigation of pressure temperature relations of saturated steam, and other investigations compared; Thiesen equation and the Holborn and Baumann modification of it; Van der Waals equation of state and its applicability to various gases; the author's equation and the principles underlying its derivation; agreement of this equation with experimental results.	
Discussion: W. D. ENNIS, R. C. H. HECK, Closure.....	363
<i>Process of Assembling a Small and Intricate Machine</i> , The, HALCOLM ELLIS	211
Ellis adding-typewriter; designing the machine to secure rapid assembly; production of parts; assembling sections of the machine; and complete machine.	
<i>Producer Gas from Crude Oil</i> , E. C. JONES.....	63
<i>Protection of Laborers from Accidents and Injury to Health in Cement Plants</i> , OTTO SCHOTT.....	729
Description of the German practice.	
Psychrometric Formulae, Rational, WILLIS H. CARRIER.....	1005
Pulsations in air compressor, effect of on cooling chambers.....	396
Pumps with herringbone gear drive.....	707
<i>Punching Machinery, Pressure-Recording Indicator for</i> , GARDNER C. ANTHONY	369
<i>Purchase of Coal</i> , The, DWIGHT T. RANDALL.....	313
Relation of quality to results; methods of sampling; the selection of coal; specifications for coal.	
Discussion: C. W. RICE, CHARLES WHITING BAKER, R. C. CARPENTER, W. F. M. GOSS, E. D. MEIER, E. W. RUTHERFORD, PERRY BARKER	320
<i>Quantity Manufacture of Small Devices</i> , F. P. COX.....	233
Organization for quantity manufacture of small devices.	
Radiation losses in boilers.....	624
Rake, virtual.....	266
RANDALL, DWIGHT T. <i>The Purchase of Coal</i>	313
<i>Rational Psychrometric Formulae</i> , WILLIS H. CARRIER.....	1005
Air conditioning, definition and scope; psychrometric charts; vapor pressure and law of partial pressures; partial saturation; dew-point; methods of measuring atmospheric humidity; psychrom-	

etric principles; rational psychrometric formulae; saturation curve and vapor pressure; total heat curve.	
Discussion: R. C. CARPENTER, L. S. MARKS, O. P. HOOD, G. A. GOODENOUGH, R. C. H. HECK, THOS. M. GUNN, Closure.....	1039
<i>Reciprocating Blast-Furnace Blowing Engines</i> , W. TRINKS.....	427
Historical sketch; valves and valve gears; clearance space.	
Discussion: E. T. CHILD, F. E. CARDULLO, Closure.....	463
REPORTS	
Annual Report of Council.....	3
Committee on Identification of Power House Piping.....	17
Research Committee.....	12
REYNOLDS, FRANK W. <i>The Development of the Textile Industries of the United States</i>	971
RICE, RICHARD H. <i>Commercial Application of the Turbine Turbo-Compressor</i>	381
Rod mills with herringbone gearing.....	706
Rolling mills with herringbone gearing.....	706
Rolls (stone crushing), power requirements.....	161
Sand-Blasting Machine, Tests of a. WM. T. MAGRUDER.....	821
Sands, colloidal reading of.....	765
fineness of.....	773
Saturated Steam, The Pressure-Temperature Relations of, LIONEL S. MARKS.....	351
SETZ, H. R. <i>Oil Engines</i>	857
Shafting bearing for textile machinery.....	980
<i>Some Experiences with the Pitot Tube on High and Low Air Velocities</i> , FRANK H. KNEELAND.....	1137
Experimental plant; Pitot tubes: United States, Gebhardt and Taylor; formulae for the Pitot tube; use of Pitot tube in mines; measuring discharge from fan chimneys.	
Discussion: G. F. GEBHARDT, R. C. CARPENTER, W. H. CARRIER, D. W. TAYLOR, Closure.....	1166
<i>Some Problems of the Cement Industry</i> , W. S. LANDIS.....	133
Definition of Portland cement; grinding of raw material; crushers; drying the product of gyratories; fine grinding mills; mixing; kilns; disposition of clinker; power requirements.	
Spray system, direct, in dry blast plants.....	1132
Stacks, Size of, with Fuel Oil, K. G. DUNN.....	46
<i>Standard Cross-Sections</i> , H. DE B. PARSONS.....	561
Discussion: F. DER. FURMAN, Closure.....	563
Steam Boilers under Hydrostatic Pressures, Strain Measurements of Some, JAMES E. HOWARD.....	639
Steam hammer, advantages of.....	469
steam consumption.....	471
Steam hydraulic press, direct acting, steam consumption.....	476
Steam (percentage of evaporation) for burners (oil).....	45
STEAM TURBINES	
<i>Energy and Pressure Drop in Compound Steam Turbines</i> , FORREST E. CARDULLO.....	325

marine, with herringbone gear transmission.....	639
STEWART, REID T. <i>Stresses in Tubes</i>	305
STILLMAN, HOWARD. <i>Locomotive Practice in the Use of Fuel Oils</i>	47
<i>Strain Measurements of Some Steam Boilers under Hydrostatic Pressures</i> , JAMES E. HOWARD.....	639
Arrangement of tests; strain gage; tangential extensions; strains in various seams; tests of boiler supports.	
Discussion: F. B. ALLEN, Closure.....	678
<i>Stresses in Tubes</i> , REID T. STEWART.....	305
Apparent theoretical stresses in the wall of a tube exposed to external fluid pressure; apparent stresses in a tube annulus compared with those in a column or strut; the author's formulae for collapsing pressure of steel tubes, and their verification.	
Sunday work in cement mills.....	184
Symposium on Cement Manufacture, see Cement Manufacture.	
Symposium on Interchangeable Parts, see Interchangeable Parts.	
Symposium on Oil Engines, see Oil Engines.	
Telescope, The Turret Equatorial, JAMES HARTNESS.....	499
Temperature, in oil burning furnace.....	106
in textile plants.....	982, 994
<i>Test of an 85-H.P. Oil Engine</i> , FORREST M. TOWL.....	905
Description of the engine tested and test arrangement; data of test.	
Test-gages	225
Testing milling cutters, method of.....	278
<i>Tests of Large Boilers at the Detroit Edison Company</i> , D. S. JACOBUS.....	565
Description of tests and plant tested; efficiencies of boilers with Roney and Taylor stokers; average analyses of flue gases and coal; heat of combustion of coal; heat balances.	
Discussion: R. H. RICE, R. D. DE WOLF, H. O. POND, W. D. ENNIS, H. DEB. PARSONS, H. H. ESSELSTYN, E. G. BAILEY, WM. KENT, R. C. CARPENTER, E. J. BILLINGS, J. W. THOMAS, A. BEMENT, E. D. DREYFUS, W. F. M. GOSS, Closure.....	590
<i>Tests of a Sand-Blasting Machine</i> , WM. T. MAGRUDER.....	821
Description of machine; measurement of air and iron removed; results.	
Discussion: F. C. BROOKSBANK, W. S. GIELE, A. G. WARREN, J. M. BETTON, S. C. SMITH, Closure.....	834
Textile Industries of the United States, The Development of the, FRANK W. REYNOLDS.....	971
Topical Discussion on Cement Manufacture, see Cement Manufacture.	
Topical Discussion on Fuel Oil, see Fuel Oil.	
Topical Discussion on Large Blast-Furnace Gas Power Plants, see Large Blast-Furnace Gas Power Plants.	
TOWL, FORREST M. <i>Test of an 85-H.P. Oil Engine</i>	905
TRINKS, W. <i>Reciprocating Blast-Furnace Blowing Engines</i>	427
TROWBRIDGE, AMASA. <i>Die Castings</i>	839
Tubes, Stresses In, REID T. STEWART.....	305

Turbo-Compressor, Commercial Application of the Turbine, RICHARD H. RICE.....	381
<i>Turret Equatorial Telescope, The</i> , JAMES HARTNESS.....	499
Standard observatory, Loewy equatorial Coudé, and turret equatorial telescope; Commons reflector; reliability of the turret; controlling the position of mirrors; the patent question; dimensions.	
Discussion: WORCESTER R. WARNER, AMBROSE SWANEY, WM. KENT, HENRY HESS, F. R. HUTTON, Closure.....	526
Valves and valve gears in blowing engines.....	429
<i>Variable-Speed Power Transmission</i> , G. H. BARRUS and C. M. MANLY..	851
Veeder cyclometer.....	845
Waste of fuel in cement industry.....	142
Waste gases, utilization in cement industry.....	183
Water, influence of, on cores.....	763
WEYMOUTH, C. R. <i>Furnace Arrangement for Fuel Oil</i>	39
WIELAND, C. F. <i>Comparative Evaporative Values of Coal and Oil</i>	32
Window space in textile mill construction.....	977, 989

UNIV. OF MICHIGAN,

DEC 7 1912
